## A few words about the Refugees@Work Career Fair

Refugees@Work Career Fair provides companies with the opportunity to benefit from the talents, the qualifications and the skills held by refugees residing in Cyprus.

Join us to meet candidates with International Protection as well as asylum seekers, in order to cover your company's needs while at the same time providing an opportunity to hard working persons to rebuild their lives and contribute in the local community.

Refugees@Work will host employers from various industries, educational institutions and business-related organizations.

The event is funded by the EU AMIF funded project 'Employer Tailor Chain Cooperation'.

**Participation at Refugees@Work Fair is free of charge.**

## Why is this initiative useful?

Businesses today operate in a challenging, evolving economic environment, characterized by constant demographic and social changes. Local communities and consumers constitute a highly diverse cultural mosaic, that acknowledges the key role of businesses in promoting social cohesion and rewards the organizations demonstrating such a commitment.

It is common ground that the efficient utilization of all available domestic human resources is essential for increasing productivity. Today, this is only possible through the cultivation of a more inclusive work culture so as to ensure that such development is not only sustainable but actually promotes social cohesion.

The Refugees@Work Career Fair aims to highlight those remarks, by bringing together employers and candidates with International Protection, who enjoy full access in the labour market and hold a wide range of professional experiences, as well as asylum seekers.

We hope that, with your support, the Refugees@Work Career Fair will achieve its goals and pave the way for a more inclusive local economic environment.
